

ANKITA BODHANKAR

Aspiring Software Developer | Fresher — Python, Flask, Full-Stack & Applied AI
+91 7387513848 | ankitabodhankar90@gmail.com | Pune, India | [LinkedIn](#) | [GitHub](#)

SUMMARY

Fresher software developer (BBA – Computer Applications, CGPA 8.33) with hands-on experience building full-stack web applications using Python, Flask, and MySQL. Built and shipped an AI-powered web app solo for a national hackathon challenge. Comfortable working end-to-end — coding, debugging, and deploying — and quick to pick up new tools. Seeking an entry-level Software Developer / Software Trainee role.

PROJECTS

EarthWise Journey — AI-Powered Sustainability Platform | *Generative AI, HTML, CSS, JavaScript, TypeScript* | [GitHub Repo](#)

- Built solo for the India Runs PromptWars Challenge — designed and shipped an AI-powered sustainability web app end-to-end within the challenge timeline.
- Used prompt engineering and Generative AI tools to prototype features, generate and refine code, and accelerate development.
- Owned the full project workflow — coding, testing, debugging, GitHub version control, and deployment — as a solo builder.

Student Academic Behaviour Analysis System (SABA) | *Python, Flask, MySQL* | [GitHub Repo](#)

- Built a full-stack web app to manage and analyse academic data for 100+ student records.
- Implemented secure login validation and role-based access control, reducing unauthorized access risk.
- Designed SQL queries for filtered performance reports, cutting manual lookup time; structured a scalable relational schema for seamless record additions.

TECHNICAL SKILLS

- Languages: Python, JavaScript
- Web: HTML, CSS, Flask, Bootstrap, PHP
- Database: MySQL, CRUD Operations
- AI: Generative AI tools, prompt engineering, AI-assisted prototyping
- Cloud: AWS Cloud Fundamentals (Certified)
- Tools & Practices: Git, GitHub, VS Code, Firebase Studio, OOP, DBMS, SDLC, Agile, Debugging

VIRTUAL EXPERIENCE

Deloitte Australia — Technology Job Simulation (Forage) *July 2026*

- Developed Python functions to transform telemetry data from multiple JSON formats into a unified data model; implemented data mapping, timestamp conversion, and automated unit tests.
- Prepared a software development proposal — scope, effort estimation, timeline, and post-deployment support — for an enterprise dashboard.

EDUCATION

Bachelor of Business Administration (Computer Applications) — ASM CSIT, Pune | CGPA: 8.33 | June 2023 – July 2026

HSC — Shree Bhairavnath Vidyalaya, Bhosari — 77.60% | 2021

CERTIFICATIONS

- AWS Cloud Practitioner — AWS SkillBuilder
- Web Development — Udemy
- Introduction to Python — Analytics Vidhya
